

Science Activity Report

Venue for the Activity: - Respective Classrooms

Activity:-Science Activity

Class: - I and II

Date: - 14 July, 2018

In charge: - Ms.Rashi , Ms.Jasveen, Ms.Sana , Ms.Preeti & Ms.Ankita

Summarized Content: - Science Activity was conducted in BIS on 14 July 2018, for the classes I and II.

The topic for the activity was the 'States of matter'. The activity included the explanation of the series of changes that happens to water on heating. Handouts were also given to the students of Classes 1 & 2. The activity was conducted with the help of ice cubes through which they came to know the process of melting. Students performed and enjoyed the activity.

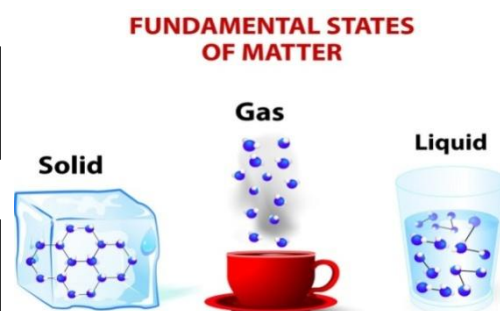

FUN SCIENCE EXPERIMENT

Did you know?

Water is the only thing on earth that naturally occurs as a solid, liquid and gas.

ON HEATING
Solid → Liquid → Gas

ON COOLING
Gas → Liquid → Solid
